

* Assignment *

Define a problem statement and give a brief Executive summary snapshot.

- A) Executive summary
- B) Project Description
- C) project scope.

A) Executive summary:

- Analysis

Food wastage management system lot's of food is being wasted in restaurant in events and also by the people so to reduce this wastage of food.

- Finding

We have to make an application in which the where there is a leftover food or the surplus would that will be notified by the restaurant in the NGO's application at the same time the NGO's when they want when they need the food so there will be notifying about the food that they want so we will be collaborating with these restaurants and also with this NGO's and will be supplying this food to the need.

B] Project Description:

Food should not be wasted and food will be saved. This food will be delivered to the needy people through their application. We will try to help all the needy people in the future. We have undertaken this so that the people of restaurant do not waste food.

C] Project scope:

We can make application for this problem all restaurateur, hoteliers can enter how much food and food is left over so they can distribute all the leftovers to the different groups so everyone will benefit from it and food will not be wasted.
